

Napiši program, ki izpiše liha števila med 1 in 20 na zaslon z DO zanko in DO WHILE zanko:

```
program liha
implicit none
integer :: i
do i=1,20,2
print *,i
enddo
end program liha
```

```
program liha_do_while
implicit none
integer :: i
i=1
do while (i.lt.20)
print *,i
i=i+2
enddo
end program liha_do_while
```

Napiši program, ki izpiše soda števila med 2 in 20 na zaslon z DO zanko in DO WHILE zanko:

```
program soda
implicit none
integer :: i
do i=2,20,2
print *,i
enddo
end program liha
```

```
program soda_do_while
implicit none
integer :: i
i=2
do while (i.lt.22)
print *,i
i=i+2
enddo
end program soda_do_while
```
